The *Global Coalition for Social Protection Floors* has four major aims:

- to seek to influence international debates on a social protection floor and raise awareness of the ILO Recommendation, based on the joint statement presented to the 101<sup>st</sup> International Labour Conference (particularly relating to the post-2015 MDGs agenda);
- to create a platform for learning experiences among civil society organizations worldwide, including contributing to the development of tools;
- to collaborate with national and regional social protection platforms and/or coalitions, where these exist, particularly those whose efforts seek to promote uptake of SPF objectives; and,
- to advocate for the formation of inclusive coalitions, where these do not exist, aimed at promoting the design, implementation, monitoring and evaluation of social protection floors.

The Coalition is committed to:

- a philosophy of inclusiveness, availability, non-discrimination and mutual respect;
- a collective output: and,
- solidarity in negotiating positions.

The coalition further encourages active involvement of all its members, and will be independent of governments and transparent in the way it does business.
