DECENT WORK, SOCIAL PROTECTION AND LEGAL IDENTITY FOR ALL

Our movement All Together in Dignity aims towards the eradication of extreme poverty through a human-rights based approach. Access to legal identity, decent work and social protection provide people living in poverty with key tools to break out of the circle of persistent poverty. Our main recommendations today focus on chapter 1, but before the end of the year we shall submit additional recommendations for chapters 3 and 5.

We recommend the following four action-oriented recommendations to achieve decent work, social protection and legal identity for all.

1. The participation of people living in extreme poverty and other vulnerable groups in the design, implementation, monitoring and evaluation of these policies in order to ensure their effectiveness.
 2. The introduction of job guarantee schemes within existing employment policies.
 3. The establishment of a new international mechanism to finance human-rights based Social Protection Floors, in particular for low-income countries and countries in crisis situations.
 4. Changes in legislation on legal identity and its application at national and local level to ensure a legal identity for everyone.. This means free birth registration, simplified procedures to obtain legal identity for adults and children, as well as mobile administrative services for areas that are currently underserved.
