

31 July 2024

H.E. Ms. Antje Leendertse
Permanent Representative of Germany to the United Nations

H.E. Mr. Neville Gertze
Permanent Representative of Namibia to the United Nations

Excellencies, Co-facilitators of the preparatory process of the Summit of the Future, Representing a wide range and worldwide reach of local, national and global civil society organizations we want to assure your Excellencies of our support for the success of this important Summit.

The [Global Coalition for Social Protection Floors \(GCSPF\)](#) notes the inclusion of social protection in paras. 18, 33, 52 and 60 in [Rev. 2](#) of the Pact of the Future. Social protection systems play a vital role in the implementation of the 2030 Agenda for Sustainable Development, signalled by their standing as target 3 of Goal 1. Without universal social protection, it will be difficult, if not impossible, to achieve the 2030 Agenda and its 17 interdependent and interconnected SDGs.

The [GCSPF](#) notes with regret, however, the frequent absence of the word ‘universal’ in this revision. Yet Universality is a fundamental principle of multilateralism and international cooperation as stated in para. 65. *All* people, from the cradle to the grave, not only those most left behind who are a priority, must have equitable access to social protection.

Social security is a human right, and social protection floors underpin successful poverty elimination strategies. Eliminating poverty and the reduction of inequalities within and between societies, adequate food supply and health care, ensuring regular school attendance for children especially girls and the elimination of discrimination against women of all ages and gender inequities related to unpaid care work require the urgent implementation of SDG Goal 1 target 3. Yet in 2024 more than half of the global population – over 80 per cent in the case of Africa – has no access to these social protection guarantees.

Social protection must not remain a privilege of the few linked to formal employment but must be enjoyed by all, first and foremost the chronically poor and those who are most hard to reach. We call on you therefore to ensure inclusion of *universal social protection* in the next draft, to support clear actions by all Member States to ensure implementation and rollout of adequately financed social protection floors by 2030.

We look forward to prominent discussions on this important topic at the Summit of the Future and future processes including the Second World Summit for Social Development in 2025.

With assurances of our highest consideration.

Yours sincerely,
